definitely worth a visit. Whether you're in the mood for a classic coffee fix or something a bit more adventurous, the menu has you covered.

Espresso-Based Drinks

For espresso lovers, % Arabica offers a range of espresso-based beverages that truly highlight the rich, full-bodied flavor of freshly brewed coffee. The **Espresso** is a straightforward yet bold choice, ideal for those who want to savor the intense flavor profile of quality coffee beans. If you prefer something a little lighter, the **Espresso Macchiato** is a great option-this espresso shot topped with a small amount of milk foam strikes a perfect balance of bitterness and creaminess.

Moving onto the more indulgent side of things, the **Caffe Latte** (available both hot and iced) is a crowd favorite. The smooth, velvety texture of steamed milk combined with espresso makes it the perfect drink for a cozy afternoon. On warmer days, the **Iced Caffe Latte** is a refreshing way to enjoy the same rich flavors, just served chilled for a cool pick-me-up.

For those who appreciate a more robust coffee experience, the **Americano** (available hot) is a must-try. This drink, made by diluting espresso with hot water, delivers a lighter yet satisfying taste without losing the espresso's depth. It's ideal for those who want a milder but still flavorful coffee experience.

Drip-Based Coffee

% Arabica Toronto Yorkdale also offers a more artisanal approach to coffee with its **Chemex** options. For those seeking a truly refined drip coffee experience, the **Chemex** is a beautiful, time-honored brewing method that emphasizes clarity and smoothness. The **Chemex - 1 cup** option is perfect for a single serving, giving you the perfect amount of coffee to enjoy. If you're with a friend or just need a little more to start your day, the **Chemex - 2 cups** option is available to brew a larger batch.

The Chemex's unique brewing method ensures that each cup is clean, crisp, and aromatic, making it a top choice for coffee connoisseurs who appreciate a lighter, more refined coffee taste. The absence of paper filters allows the oils from the coffee beans to shine through, delivering a full-bodied cup with every pour.

Soft Creams and Sweet Options

If you're craving something a bit sweeter, the % **Soft Cream** offerings are a treat for the senses. One of the standout items is the % **Matcha Cream**, a smooth, rich soft serve made with high-quality matcha. Its velvety texture and slightly sweet

flavor offer a perfect balance to the sometimes-bitter notes of coffee, making it an excellent choice for those who enjoy a sweet, creamy contrast.

Matcha and Chocolate Drinks

For those who prefer a different kind of indulgence, the menu includes a variety of non-coffee beverages that are equally delicious. The **Matcha Latte** (available hot or iced) is a vibrant, flavorful drink made with premium matcha powder, mixed with milk to create a soothing, creamy texture. The hot version is perfect for cold days when you want something warm and comforting, while the iced version offers a refreshing twist that's perfect for the summer.

Another great option is the **Chocolate** drink, which is available both hot and iced. Rich and decadent, the hot chocolate is perfect for those with a sweet tooth, offering a luxurious, velvety texture that's both soothing and satisfying. The iced version brings a cool, chocolatey twist to your day, providing a sweet pick-me-up on hot afternoons.

For something with a bit of a tangy twist, the **Lemonade Still (Hot)** is a refreshing and surprisingly enjoyable option. The warmth of this lemonade drink provides a unique experience, especially if you're looking for something a little different from traditional coffee or tea. It's a perfect balance of tart and soothing flavors, ideal for a light refreshment.
